Sébastien Barbier

Staff Software Engineer | Founder of Shellui

contact@sebastienbarbier.com | +41 xx xxx xx xx | sebastienbarbier.com

8005 Zürich, Switzerland | 31 January 1988 | French nationality | B permit (EU/EFTA)

Staff-level software engineer with 16+ years of experience shipping products from first idea to production. Led SAP FSM's microfrontend migration; now builds Shellui, an open-source microfrontend shell. Core stack: React, TypeScript, Python and Django.

Professional Experience

Founder & Full-Stack Engineer 2026 – Present

Shellui, open-source web app platform (shellui.com) *Zürich, Switzerland / Remote*

- Shipped end to end: React/TypeScript apps, Python/Django REST APIs and a CLI.
- Implemented shared sign-in with OAuth, SAML SSO, magic links and Supabase Auth across apps.
- Built event-driven APIs: signed webhooks, Celery jobs, multi-tenant PostgreSQL and S3 storage.
- Delivered admin panel for members, email, webhooks and company access; shareable file storage.
- Maintained 1,000+ tests and CI/CD on every pull request; ships as web app or Tauri desktop.

Staff Frontend Engineer Dec 2023 – Dec 2025

Unique AG *Zürich, Switzerland / Remote*

- Led frontend engineering for an agentic AI chat platform serving financial services.
- Integrated RAG and MCP for context-aware, compliant client interactions in production chat flows.
- Partnered with product, design and backend teams on delivery and release quality.

Full-stack Software Engineer Aug 2021 – Nov 2023

Self-employed *Zürich, Switzerland / Remote*

- Built and ran my own web products, including FromEdwin.com, from product idea to delivery.
- Owned architecture, frontend, backend, infrastructure, observability and CI/CD as a solo founder.

SAP Feb 2020 – Jul 2021

Field Service Management (FSM); promoted to Associate Development Architect *Zürich, Switzerland / Remote*

- Led FSM's move to microfrontends as Technical Lead, aligning several teams on shared foundations.
- Co-designed the FSM integration protocol after promotion to Associate Development Architect.
- Mentored developers and drove architecture decisions across the FSM organization.

Web Technologies Consultant and Freelancer Sep 2016 – Jan 2020

Self-employed *Chiang Mai, Thailand / Remote*

- Built the UI of Mozilla's Notes by Firefox extension and contributed to its React Native app.
- Delivered chatbots, PWAs and web integrations for clients including Chefclub and Mila AG.
- Worked remotely and independently with international clients, from first call to release.

Front-end Developer / Technical Lead Jun 2014 – Aug 2016

Fluance AG *Solothurn, Switzerland*

- Led frontend in a four-person Scrum team building a cross-platform HL7 patient data interface.
- Owned documentation, testing and deployment; stack: AngularJS, jQuery and Foundation CSS.

Earlier Experience

Java Developer Sep 2012 – Jun 2014
Covalia *Besançon, France*

- Maintained Java libraries and real-time HL7/DICOM exchange for a telemedicine platform.
- Supported deployments and customers in an ISO 13485 regulated environment.

Part-time Lecturer Sep 2011 and Sep 2012
University of Franche-Comté *Besançon, France*

- Taught 98 hours of practical Java and HTML/CSS to third-year engineering students.
- Two five-month contracts at ISIFC and UFR ST, University of Franche-Comté.

Co-founder and Full-stack Developer Jul 2009 – Jun 2012
Ionyse *Besançon, France*

- Co-founded a web agency during my master's, building client websites on a Python/Django CMS.
- Built pixel-perfect interfaces with HTML5, CSS3 and jQuery.

Technical Skills

Frontend
TypeScript, JavaScript, React, Next.js, Angular, Tailwind CSS, PWA, accessibility, UX/UI.

Backend & Architecture
Python, Django, Java, REST APIs, SSO, Celery, PostgreSQL and Supabase.
Microfrontend architecture and multi-tenant SaaS backend design.

Delivery & AI
CI/CD, Docker, automated unit and E2E testing, LLMs, RAG and MCP integrations.

Tools & Ops
Git, GitHub Actions, Sentry, Linux server administration, Tauri desktop builds.

Domains
Financial services, healthcare (HL7, DICOM, ISO 13485), enterprise SaaS, open source, microfrontend platforms.

Soft Skills

Ownership: took Shellui and FromEdwin.com from idea to production as a solo founder.

Collaboration: aligned several SAP teams on microfrontends; partnered with product and design at Unique.

Mentoring: mentored developers at SAP and taught 98 hours of programming at university.

Remote & international: four years with clients worldwide; comfortable in distributed, multilingual teams.

Pragmatism & quality: simple, well-tested solutions shipped in small steps with clear documentation.

Education

Master's in Computer Science 2011
Distributed Systems and Networks, University of Franche-Comté, France

Bachelor's in Computer Science 2009
University of Franche-Comté, France

Final Year in Computer Science (Erasmus) 2008
University of Portsmouth, England

Higher National Certificate in Computer Science 2007
IUT of Belfort, France
