

SÉBASTIEN BARBIER

Software Engineer

contact@sebastienbarbier.com | xxxxxxxxxx | sebastienbarbier.com

Zurich, Switzerland | Swiss B Permit

EXPERIENCE

Staff Frontend Engineer

Unique AG

Dec 2023 - Dec 2025

Zurich, Switzerland / Remote

- Led frontend engineering for an agentic AI chat platform for financial services.
- Used RAG and MCP to support context-aware, compliant, and insightful client interactions.

Full-stack Software Engineer

Self-employed

Aug 2021 - Nov 2023

Zurich, Switzerland / Remote

- Built Seven23.io and FromEdwin.com as a full-time solo entrepreneur.
- Managed the entire stack, from architecture and development to DevOps, CI/CD, and delivery.
- Also provided liquidity in DeFi markets and explored decentralized finance infrastructure (Oct 2021 - Jul 2023).

Associate Development Architect / Senior Developer

SAP

Feb 2020 - Jul 2021

Zurich, Switzerland / Remote

- As Associate Development Architect (Nov 2020 - Jul 2021), helped design and implement FSM's extensibility protocol for secure third-party integrations; led architecture decisions and mentored developers.
- As Senior Developer and tech lead (Feb - Oct 2020), supported Field Service Management's migration to a microfrontend architecture.

Web Technologies Consultant and Freelancer

Self-employed

Sep 2016 - Jan 2020

Chiang Mai, Thailand / Remote

- Developed chatbots, PWAs, web extensions, React Native apps, and web integrations for clients including Chefclub, Mozilla, and Mila AG.

Front-end Developer

Fluance AG

Jun 2014 - Aug 2016

Solothurn, Switzerland

- Led frontend development in a four-person team building a cross-platform HL7 patient data interface with jQuery, AngularJS, and FoundationCSS.
- Managed documentation, testing, and deployment under Scrum practices.

PROJECTS

Shellui

TypeScript, React, Django

2026 - Present

shellui.com

- Open-source microfrontend shell providing shared navigation, authentication, storage, and administration so teams can focus on their applications.

Seven23

React, Django, Material UI, Next.js

2011 - Present

seven23.io

- Open-source personal budgeting app for manual expense tracking, built with privacy by design and end-to-end encryption to protect financial data.

EXPERIENCE (CONTINUED)

Java Developer

Sep 2012 - Jun 2014

*Covalia**Besançon, France*

- Contributed to the Covotem telemedicine platform, maintaining Java libraries and real-time interoperability with HL7 and DICOM.
- Supported deployment, customer assistance, and ISO 13485 compliance.

Part-time Lecturer

Sep 2011 and Sep 2012

*University of Franche-Comté**France*

- Delivered 98 hours of practical Java and HTML/CSS instruction to third-year engineering students at ISIFC and UFR ST across two five-month contracts.

Co-founder and Full-stack Developer

Jul 2009 - Jun 2012

*Ionyse**Besançon, France*

- Co-founded a web agency during my master's, working part-time for two years before moving to a full-time role.
- Built websites and applications with a custom Python/Django CMS, specializing in frontend development and pixel-perfect HTML5, CSS3, and jQuery interfaces.
